Calapan City, MIMAROPA, Philippines | +63 966 144 9462 | chynnaalemania50@gmail.com | alemaniachynna.vercel.app

EDUCATION

Mindoro State University

Bachelor of Science in Information Technology

Calapan, Oriental Mindoro, PH

June 2026

- Dean's Lister, 2023 – 2025
- Relevant Coursework: UI/UX Design, Object-Oriented Programming, Quality Assurance, Systems Design, Human-Computer Interaction
- Capstone Role: Technical Writer · UI/UX Designer

WORK EXPERIENCE

New San Jose Builders Inc.

Developer | Quality Assurance Intern

Quezon City, PH

Feb 2026 – May 2026

- Designed user-centered interfaces following WCAG accessibility standards, improving usability for end users.
- Collaborated with team members on UI/UX projects and created interactive prototypes using Figma.
- Documented test cases, reported defects, and worked closely with developers to ensure software quality.
- Conducted usability reviews and contributed to interface improvements across multiple internal platforms.

UNIVERSITY PROJECTS

AllServe – Capstone Project

2025

UI/UX Designer · Technical Writer

- Built an AI-powered community health platform for LGUs and Barangay Health Workers enabling real-time health analytics and automated reporting.
- Designed coordinated community-care workflows with multi-role dashboards using React and Firebase.

Hotel Management System

2026

Developer · UI/UX Designer

- Built a full-stack hotel management system handling rooms, bookings, guests, and admin workflows using React, Vite, Node.js, and MySQL.

MinSU HealthSync

2024

· UI/UX Designer · QA Analyst

- Built a full-featured clinic management system for Mindoro State University with electronic health records and medicine inventory tracking.
- Integrated automated appointment reminders and multi-role access to streamline clinic operations for staff and students.

Meat Quality Detection

2024

QA Analyst · Machine Learning

- Created a machine learning-powered web tool that classifies meat freshness into three categories (New, Semi-new, Rotten) using image-based detection.
- Trained and deployed a classification model integrated into a Django web interface for real-time analysis.

MinSU Event's Venue Scheduling

2023

UI/UX Designer · Technical Writer

- Designed and developed a venue scheduling system addressing manual scheduling challenges at Mindoro State University, with real-time availability checks and reservation management.
